TAB 4

DD/R SPACE TO BE DEREQUISITIONED

1. Room CH19, recently committed to the Deputy Director (Research), is being used as a holding area for personnel being assigned to the CRD. If the occupancy plan recommended in this memorandum is approved, this office will have no further use for the 820 square feet compromising this area. The remoteness from other components of the DD/R, plus the fact that this room has not been converted into a controlled access area, constitutes our reasons for derequisitioning.

2. Rooms 5G07 and 5G09 are presently being occupied by the Research and Development Division/OEL. The area consists of approximately 710 square feet of space and is located in a controlled access area. This space will be derequisitioned if RD/OEL personnel are relocated in the space recommended in this memorandum.

3. Total Space to be derequisitioned:

a. Rooms	5G07-5G09	710
b. Room	CH19	820
	Total	1530
